## Parks & Recreation...

Through good times and bad, we are here for YOU.

It is no secret that the economy has had a severe impact on our operating budget, and many of you may be wondering what if any changes to expect. Our staff prides itself on improving our community's quality of life by providing the best possible programs, special events, classes and parks. We are constantly reevaluating our processes to insure that we provide the best and highest level of customer service to our constituents.

Since 2001 the Parks and Recreation staff has increased the numbers of programs/classes from 65 classes/programs to a staggering 265 classes/programs in just eight years. These offerings include all age groups from toddlers to senior citizens. We will continue to strive to provide you with programs that provide you choices in as many areas as we can develop and still offer quality programs.

The Parks and Recreation Department is also responsible for all of our parks in Culpeper County. In 2001 the Department had under our banner Spilman and Galbreath/Marshall parks totaling 32 acres of usable parkland. In 2005, the Culpeper Sports Complex became a reality, and an additional employee was hired in 2006 to maintain the 59-acre facility. One year later the Parks and Recreation Department took over the old landfill/transfer station and added another 275+ acres, and in 2007 the County acquired Lenn Park which contributed another 81 acres.

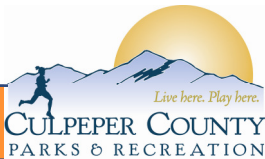

Like most businesses and residents the County of Culpeper is experiencing the effects of the economic downward spiral. As the 2011 fiscal year approaches, the Parks and Recreation Department staff will be challenged to continue a high level of service for community residents. That said, Department staff will be seeking help from community residents and other departments of the County.

During budget year 2011 Department staff will identify need areas that will require attention. To help alleviate these areas, such as park tasks or front desk assistance, a strong volunteer base will be essential. Volunteerism plays a prominent role in parks and recreation organizations, especially when funding becomes scarce. Volunteering has been defined as "giving freely of one's time and energy without concern for monetary gain." While some assignments may require several hours on one task, another project may need a dedicated individual willing to commit several hours per week throughout the year. The latter commitment will command a special type of person interested in helping the public with questions, classes and some information outside of the realm of parks and recreation.

With the combined efforts of the above, Department staff firmly believes a solid level of service will continue for the community's selection of activities and facility safety and use. Staff looks forward to year 2011 for the challenge and a commitment to maintain a past standard that Culpeper residents have grown to enjoy.

Please complete the "ActiveNet Customer Account Form" on page 24 and fax or mail it to the department. You can also set up your account online. This form only has to be completed once.

If the minimum is met by this date, registrations will continue to be accepted, unless otherwise stated, until the activity is full. However, if minimum is not met by this date, the activity will not be held.
